Objective

Dedicated and detail-oriented professional with a background in IT and full-stack development, seeking a position in the **school office (accounts section)**. Eager to apply my strong analytical, data management, and organizational skills to support financial and administrative operations in an educational environment.

Professional Summary

- Over **2 years of experience** in managing data systems, maintaining digital records, and coordinating administrative workflows.
 - Proficient in **data entry, database management, and documentation** using tools such as MS Excel, MySQL, and Google Sheets.
 - Adept at managing multiple tasks, maintaining accuracy in financial records, and supporting team operations with efficiency.
 - Strong communication and coordination skills gained from working in collaborative IT projects.
-

Technical & Office Skills

- **Accounting Tools:** MS Excel, Google Sheets, Tally (basic)
 - **Database Management:** MySQL
 - **Software & Tools:** MS Office Suite, VS Code, Postman
 - **Technical Skills:** React.js, Node.js, HTML, CSS
 - **Soft Skills:** Time Management, Team Collaboration, Problem Solving, Attention to Detail
-

Professional Experience

React Full Stack Developer | 2022 – Present (IT Industry Projects)

- Handled large volumes of **data entry and validation** in MySQL for multiple system modules.
- Created structured **record-keeping systems** that improved accuracy in user and transaction data management.

- Supported **billing and accounting modules** in management systems, gaining exposure to payment tracking and balance sheet recording.
 - Worked collaboratively to ensure proper data flow and **report generation** across departments.
 - Assisted with **documentation, invoice record management**, and project progress tracking.
-

Education

B.E – Electronics and Communication Engineering

Marephraem College of Engineering & Technology – 2022

HSC – Christian Matriculation School – 2017

SSLC – L.M.S Girls Higher Secondary School – 2019

Strengths & Attributes

- Excellent organizational and numerical skills
 - Accurate and efficient data entry and record maintenance
 - Ability to handle confidential information responsibly
 - Quick learner, adaptable to new systems and accounting software
 - Passionate about contributing to educational environments
-
